

# Reimagine Rensselaer

## We Want to Hear from You!

The City of Rensselaer is kicking off “Reimagine Rensselaer” and we want you involved in the planning. During the process we will develop a community vision for the City’s future, identify strategic sites for redevelopment, and create an implementation strategy to make the vision a reality. The goal of this effort is to attract investment and funding opportunities to the City of Rensselaer.

This project is funded through the NYS Department of State (DOS) as part of a Brownfield Opportunity Area (BOA) program that has been used across the state since 2005 to assist communities in attracting investment. So far, NYS DOS has distributed over \$45 million for planning and pre-development activities.

To provide comments or questions, please contact our consultant:
