## F) Bid Analysis from Sponsor

The following components have been addressed in conducting the bid analysis:

- 1. The contract advertisement met the contract advertisement requirements by advertising for a minimum of three (3) weeks in advance of the bid opening in the New York State Contract Reporter. Given that 3 firms/venders firms, originally 4, bid on the contract; adequate competition has been secured.
- 2. Bids were opened on February 12, 2021 at 10:00 AM.
- The low bidder proposed for award is not the same low bidder that was determined at the bid opening, previously New Castle Paving, LLC. The new current low bidder is Peter Luizzi & Bros. Contracting.
- 4. The low bid is 38.4% above the engineers estimate and 7.1% below the next bidder. A review of all bids does not indicate unbalanced bidding by the apparent low bidder.

## G) Documentation demonstrating the low bidder's good faith effort of Disadvantaged Business Enterprise Competition

In accordance with Paragraph 13.5.1 of the Procedures, the goals outlined in the Contract Proposal which was signed by Peter Luizzi & Bros. Contracting.; there is a DBE goal of 6% for this contract. Peter Luizzi & Bros. Contracting has acknowledged there is a goal and will need to complete EBO prior to NYSDOT issued concurrence.

## H) Certification of the Low Bidder Responsibility

Using the following guidelines as established by the Governor's Executive Order #170.1 the low bidder has been determined to be responsible.

- 1. The low bidder does not lack the expertise, experience or financial resources to complete the project.
- 2. There is no apparent criminal conduct in connection with government contracts.
- 3. The low bidder has not demonstrated grave disregard for the personal safety of employees, government personnel, or members of the public.
- 4. The low bidder has no record of willful non-compliance with prevailing wages.
- 5. The low bidder has no other significant labor law violations.
- 6. The low bidder has no apparent violations of the Workers Compensation Laws.
- 7. The low bidder has no apparent criminal conduct involving violations of Environmental Conservation Law or other environmental statutes.
- 8. The low bidder has demonstrated good faith efforts to comply with Federal or State statutes and regulations regarding efforts to solicit and utilize Minority, Women or Disadvantaged Business Enterprises on government contracts.
- 9. The low bidder apparently complies with State and Federal equal opportunity statutes and regulations.
- 10. There are no other causes so serious and compelling that it raises questions about the present responsibility of the low bidder.

In addition to the items above, the following checks have been performed as part of the review for bidder responsibility:

- A check of the General Services Administration's List of Debarred, Suspended, or Voluntarily Excluded Firms Ineligible for Federal Aid has been made and to Peter Luizzi & Bros. Contracting does not appear.
- A check of the Department of Labor's monthly list of firms debarred for willful violations of the labor law has been made and to Peter Luizzi & Bros. Contracting does not appear.
- A check of the Department of State's Corporation database has been made and Peter Luizzi & Bros.
   Contracting has the proper authority to conduct business in New York State.

## IRAN DIVESTMENT ACT

As a result of the Iran Divestment Act of 2012 (Act), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL), § 165-a, effective April 12, 2012. Under the Act, the Commissioner of the Office of General Services (OGS) will be developing a list (prohibited entities list) of "persons" who are engaged in "investment activities in Iran" (both are defined terms in the law). Pursuant to SFL § 165-a(3)(b), the initial list is expected to be issued no later than 120 days after the Act's effective date, at which time it will be posted on the OGS website.

By entering into this Contract, Contractor (or any assignee) certifies that once the prohibited entities list is posted on the OGS website, it will not utilize on such Contract any subcontractor that is identified on the prohibited entities list. Additionally, Contractor agrees that after the list is posted on the OGS website, should it seek to renew or extend the Contract, it will be required to certify at the time the Contract is renewed or extended that it is not included on the prohibited entities list. Contractor also agrees that any proposed Assignee of the Contract will be required to certify that it is not on the prohibited entities list before the New York State Department of Transportation (NYSDOT) may approve a request for Assignment of Contract.

During the term of the Contract, should NYSDOT receive information that a person is in violation of the above referenced certification, NYSDOT will offer the person an opportunity to respond. If the person fails to demonstrate that it has ceased its engagement in the investment which is in violation of the Act within 90 days after the determination of such violation, then NYSDOT shall take such action as may be appropriate including, but not limited to, imposing sanctions, seeking compliance, recovering damages, or declaring the Contractor in default.

NYSDOT reserves the right to reject any request for assignment for an entity that appears on the prohibited entities list prior to the award of a contract, and to pursue a responsibility review with respect to any entity that is awarded a contract and appears on the prohibited entities list after contract award.
